## TOO MUCH TALK

Chili's Obstructive Tactics May Defeat the Ends of Conference.

## CLOTURE IS PROPOSED

If No Other Means Is Obtainable the Gag May Be Put Upon the Recalcitrant Delegates.

Acceptance of the Hague Convention Is Sought and Two Plans Are Presented.

Mexico City, Jan. 16.—The plan for the adherence of the nation's representative at the Pan-American congress to the Hague convention was introduced by the Chilean delegation yesterday after a long and able statement tending to show the advantages of the Hague convention and the impracticability of compulsory arbitration. The plan for the adherence of the nations of America to the Hague convention is as follows:

The states represented at the second international American conference resolve: First, to adhere to the conventions signed at The Hague by the powers represented at the international peace conference; (a) for the peaceful adjustment of international disputes; (b) for the adaptation to maritime warfare of the principles of the Geneva convention of Aug. 22, 1864; (c) with respect to the laws and usages of land war.

Second, to confer, in order to attain that end, upon the United States of America and the United States of Mexico, signatory governments to said conventions, authority to take the necessary steps established for the adherence of the non-signatory powers.

The following is the official plan of acceptance of the Hague conference signed by the delegations to the Pan-American conference with the exception of Chili, who it is claimed for purposes of obstruction presented an independent plan, and Ecuador, who has sided with Chili throughout the conference:

Article I.—The American republics represented at the international conference at Mexico, and which were not parties to the three conventions signed at The Hague on July 29, 1899, recognize the principles set forth in those conventions as part of the public international law of the Americas.

Article II.—The acceptance of the conventions which are open when once ratified by the several governments shall be communicated by those governments through diplomatic channels to the government of the Netherlands.

Article III.—As it is anxiously expedient that the controversies which it may be agreed to submit to arbitration should be confined to the jurisdiction of a tribunal of so high a character as is the permanent arbitration court of The Hague and also that the American nations which did not sign the convention which created so beneficent an institution may be able to have recourse to it by virtue of a recognized and accepted right and taking moreover into consideration the offices tendered by the governments of the United States of America and the United States of Mexico, the conference bestows on said governments the mission of negotiating with the other powers who signed the conference for the pacific adjustment of international difficulties, to the end that the nations of America which did not sign the convention may become parties thereto.

In an additional article the signatory nations empower the Mexican government in the interval between the present and the next Pan-American conference to communicate with other governments of America with a view to ascertaining the practicability of concluding a still more comprehensive plan of arbitration. If those steps are successful a further treaty will be concluded between two or more of the nations in question and in any event, Mexico will report at the next conference as to the success of her efforts in this direction.

The obstructive tactics of Chili were clearly revealed yesterday, so it begins to be apparent that it will be practically impossible to ever bring either of the arbitration projects to a vote unless some rule resembling the cloture of the British parliament is adopted, as the Chilians will continue to talk indefinitely.

## Will Plead Insanity.

Muncie, Ind., Jan. 16.—The remains of Mrs. Charles Pittner, murdered by her jealous husband Tuesday, were yesterday sent to her home in Middletown. Pittner was bound over to the circuit court on the charge of murder, being refused permission to see his wife yesterday. The young man swooned away three times in jail and a physician has been with him most of the time. The plea of insanity will be made in his defense.

## To Beautify the Capital.

Washington, Jan. 16.—President Roosevelt and the members of the cabinet yesterday visited the Corcoran gallery of art and inspected the drawings prepared by the committee appointed to devise plans for beautifying the national capital. The president expressed himself as delighted with the drawings and said that the views of the committee should be carried out.

## NAVAL PLANS

For Prince Henry's Reception Are Now Under Way.

Washington, Jan. 16.—Secretary Long yesterday called Rear Admiral Robley D. Evans into consultation respecting the coming visit to the United States of Prince Henry of Germany. The rear admiral has not yet been given written orders detailing him to act as the representative of the navy at the reception, but that matter has been agreed upon, and Secretary Long charged Admiral Evans with the preparation of a naval program for the reception. In view of the number of distinguished officers who are now reported to be about to accompany the prince on his visit, it is evident that Admiral Evans will require the assistance of a number of junior officers. They will be detailed as occasion requires.

So far the state department is not officially advised of the approaching visit of the prince, hence it has done nothing toward arranging a program for his reception and entertainment. It is assumed at the war department, though orders have not yet been issued, that Major General Brooke, as commander-in-chief of the department of the East, will represent the United States army in the reception.

## WILL HAVE TO SHOW

Too Much Jewelry Causes Three Arrests in New Orleans.

New Orleans, Jan. 16.—George I. Kline of St. Louis and Robert L. West of Cincinnati were arrested across the river yesterday charged with robbing the trunk of T. E. Manners of Chicago of about \$2,500 worth of jewelry. They are alleged to have represented themselves Tuesday night as Manners and another guest, at the St. Charles, paid the bills and left with the baggage. They crossed the river in a skiff and were caught before the train came on which they expected to leave, through the watchfulness of a newsboy who had read the story in the newspapers.

Later in the day Manners went over to identify the property and Kline accused him of being a thief under an alias. As the whole affair had a queer look Manners was also arrested. The police suspect he is Kerns, the New York jewelry thief, and Chief of Detectives Titus of New York sent a telegram here which strengthens the idea. Manners claims that he is with his father in the pawn brokerage business in Chicago and the jewelry taken was unredeemed pledges he was trying to dispose of. Fifty diamond pins, a gold watch, a diamond brooch and some pearls are in the lot.

## Ohio Cracksmen.

Canal Dover, O., Jan. 16.—The safe of the Tuscarawas Electric company was dynamited and robbed of its contents by three masked men, who overpowered the night watchman and a boy, both of whom they bound and gagged. The receipts of the day had been placed in an iron box under the floor and was overlooked by the burglars, who got less than \$30 from the safe. The robbers escaped. At Marysville, Ohio, the safe of the Big Four railroad office was dynamited, but no money was secured.

## Hope Is Given Up.

Port Townsend, Wash., Jan. 16.—All hope that Captain James McIntyre and comrades of the steamer Bristol might yet be alive was dispelled yesterday on the arrival of the steamer Cottage City from the north. Captain Wallace, who picked up the survivors, says that he believes that the others went down with the vessel when she slid from the reef, and even if they had got clear from the ship it would have been almost impossible for their small boats to have lived in the sea which was raging at the time.

## The Condor's Fate In Doubt.

Victoria, B. C., Jan. 16.—Hope for the safety of the British warship Condor is all but abandoned. Naval men here are convinced she went to the bottom during the recent typhoon, while on her way from here to Honolulu. The Admiralty officials will send the Phaeton Saturday in search of her.

## Color Line In Oklahoma

Guthrie, Okla., Jan. 16.—Chief Justice Burford has issued an order that if there be only one colored child of school age in a school district, the authorities must provide a separate schoolhouse and teacher. This order takes in the entire territory.

## TERSE TELEGRAMS

The entire business portion of Arapahoe, the county seat of Custer county, O. T., was destroyed by fire.

William Fife of Fairlie, on the Clyde, is to build Sir Thomas Lipton's next challenger for the American cup.

Secretary Hay has sent to the house of representatives a request for a legislation building at \$200,000.

The population of Canada as officially announced is shown by the census of 1901 to be 4,368,060, an increase of 136,425 for the decade.

The board of directors of the New York board of trade and transportation elected Oscar S. Straus, former minister to Turkey, president of the board.

Rear Admiral Wm. K. Von Reypen, chief of the naval bureau of medicine and surgery, will be relieved on the 25th instant with the rank of a senior rear admiral.

The Scotland Yard officials have been notified by the commissioner of police of New York that a large gang of swindlers are gradually making their way to London in batches.

Robbers held up and robbed two farmers near Anandick, O. T. Sheriff Frank Smith and his deputy, George Beck pursued and overtook the robbers, who opened fire and killed both officers. German naval officers are eager for assignments to accompany Prince Henry to the United States and many young noblemen are bringing influence to bear to obtain appointment for this duty.

## GOT THEM GOING

Senator Hale Starts Something In the Senate Chamber.

## THE NAVAL RESERVE

Is the Subject Concerning Which the Senator From Maine Precipitated a Spirited Debate.

The Volunteers And the National Guard Do Not Lack For Defenders In the Senate.

Washington, Jan. 16.—A spirited debate was precipitated in the senate yesterday by some remarks submitted by Mr. Hale of Maine in respect to bills relating to the formation of a naval reserve which he introduced. He took strong ground against the organization of a naval reserve, his comments being construed by some of the senators into a reflection upon volunteer soldiers and land militia. Half a dozen senators were on their feet in an instant to defend the volunteers and the national guard of the various states, and the debate took so wide a

SENATOR HALE

range that senators went back in their references to the days of the Revolutionary war to seek illustrations for their arguments. While no action was possible at this time, it is likely that the discussion upon the measures should they be reported, would be very lively. No business of special importance was transacted, the time of the senate being consumed by matters of routine. A concurrent resolution was adopted providing for the printing of 3,500 copies of the proceedings of the Schley court of inquiry.

After the adjournment of the senate Mr. Hale said the naval reserve bills introduced by him had been presented by request of persons interested in such legislation. In the same manner he had introduced bills representing the views of the navy department and those of individuals and organizations on the question of a naval reserve. He personally, however, did not stand committed to any of them, and he questioned whether any satisfactory results would come from them. The bill authorizes the creation of a naval reserve of not to exceed 20,000 men and 600 officers, the men to receive \$50 and the officers from \$100 to \$200 annually. Another bill introduced by Senator Hale authorizes the organization of a naval reserve from honorably discharged sailors, but does not fix the number.

## Pension Legislation.

Washington, Jan. 16.—The house yesterday passed the pension appropriation bill which had been under discussion for three days, and then adjourned until Saturday. The resolution prepared by the special committee on the McKinley memorial exercises providing for an address by Secretary of State John Hay in the hall of representatives Feb. 27, was adopted.

## IT CONVERTED HIM

An Anti-Expansionist Modifies His Views After Inspection.

Colorado Springs, Col., Jan. 16.—Dr. A. L. Hazlett, a member of the committee appointed by President McKinley to investigate moral conditions in the Philippines, who has just arrived from Manila, said in an interview yesterday: "I went there an anti-expansionist and came back firmly believing that we should hold on to the islands and do what we can for them."

## Married In Jail.

Peoria, Ill., Jan. 16.—George Washington Brown of Woodstock county, aged 21 years, confined in the Peoria jail on a charge of horse-stealing, and Miss Lucinda Fetters, also of Woodstock, were married at the jail by County Judge Lovett. After the ceremony the prisoner was again locked up in his cell and the bride went on her way.

## Ading to Her Navy.

Colon, Colombia, Jan. 16.—The Colombian government has purchased the steamer Chucuito, belonging to the Pacific Steam Navigation company. Artillery from the Colombian gunboat General Pinzon will be mounted on the Chucuito, which is a little bigger than the Liberal gunboat Darien.

## Miss Clayton Marries a Baron.

Mexico City, Jan. 16.—The marriage of Miss Charlotte Clayton, daughter of General Powell Clayton, United States ambassador, to Baron Moncheur, Belgian minister at Washington, was solemnized yesterday in the private chapel of the Duchess of Mier.

## CAPITAL DOINGS

Some Pertinent Points Presented By Our Indianapolis Correspondent.

Indianapolis, Jan. 16.—Sportsmen from all over the state will attend the national gathering of the League of American Sportsmen in this city Feb. 12. New York is about the only state in the Union that shows a roll of more members than Indiana, for the list in this state has increased rapidly in recent months. The object of the organization is the protection of fish and game and the enactment of legislation along that line. Frank Littleton, warden for this state, believes the work of the meeting may be accomplished in one day. An effort will be made to do it in that time, at least. The sessions will begin early in the day and proceed almost without cessation until the work at hand is finished. In conclusion there will be a banquet that promises much in the way of addresses from prominent members from other states and this state. The sessions will be held in the Commercial club rooms. A committee to make all the preliminary arrangements for the entertainment of the city's guests during the meeting was appointed last Saturday night and has been working hard ever since trying to perfect its plans. It is probable that Indiana will submit much in the line of proposed legislation for the preservation of game, but some of the states that have not satisfactory laws are expected to come to the front with propositions. Persons who are not members of the association have been invited to participate in the preliminary sessions that have been held up to this time. It is not the purpose of the league promoters to bar anyone from helping them in their work simply because he has not a card of membership in his pocket.

In the Michigan City prison Friday, John Rinkard, the Marion wife murderer, will pay with his life the penalty for his awful crime, unless something unexpected intervenes. Rinkard will leave the death cell shortly after midnight tonight and begin the journey to the same scaffold where Joseph D. Keith was recently hanged. It is not believed here that any of the powers that be will interfere with the carrying out of the sentence, for the supreme court has refused to even grant a request that his mental condition be investigated by a lunacy commission. Governor Durbin has declared that he will not interfere, so there seems no hope for the condemned man. He seems least concerned of all about his fate, but continues to manifest the most stolid indifference.

## A HOLE IN THE GROUND

Is All That Now Shows For Nitroglycerine Magazine.

Marion, Ind., Jan. 16.—Fifteen hundred quarts of nitroglycerin, stored in the St. Mary Torpedo and the Empire Nitroglycerin company's magazines in a ravine two and a half miles south-east of this city, exploded yesterday. Nothing but a great yawning hole where the magazines stood is left to tell the story. The entire city was alarmed by the noise and concussion of the explosion, and every one of the veterans at the National Soldiers' Home, near which the magazines were located, was given a start as though their barracks were over the quaking crater of a volcano.

Business houses and residences all over Marion were jarred and some glass was broken in houses three miles away. The jar was also felt as far away as Fort Wayne. At Gas City it was particularly severe and several hundred dollars' worth of glass was broken and several houses were damaged.

The house located nearest the magazines was a half mile distant. It was badly jarred. It is thought that a gas jet left burning in the St. Mary's magazine set fire to the building and caused the explosion. No one was near the place at the time.

## Trouble Due to Love.

He is but 19 years old.

## Veteran Sentenced.

Noblesville, Ind., Jan. 16.—William Rodgers, aged 61, who served four years in the civil war, pleaded guilty before Judge Neal yesterday to an indictment charging him with stealing a horse and buggy in this city last spring and he was given an indeterminate sentence in the Michigan City penitentiary.

## Smothered Under a Load.

## Caught By a Train.

Bedford, Ind., Jan. 16.—The body of Bish Hamersley, 22 years old, was found on the tracks of the Monon railroad, one mile south of this city, cut to pieces. He had lived near the place where the body was found, and he was caught in a big cut by a freight train while going home.

## Returned With a Fortune.

## NICE \$20 GOLD PIECES

Mrs. Rozella Wright Who Died a Few Days Ago Had More Money Than Was Suspected.

Besides Cash In the Bank There Was Treasure Buried On Her Farm.

Jeffersonville, Ind., Jan. 16.—Buried in the ground in old tin cans \$34,000 in gold has been found on the farm of Mrs. Rozella Wright, who died Jan. 4, near this city. How long this money had lain in the ground no one knows, and its location was known only by one person, Miss Sallie Williams, a woman whom Mrs. Wright had reared from childhood. At Mrs. Wright's death she left a will in which she made bequests to relatives and friends amounting to \$4,011. Miss Williams receiving \$1,000. John Potter was named as administrator of the estate, and besides a farm valued at \$4,000 he found \$6,000 to Mrs. Wright's credit in a local bank. He believed that this was all of the estate until Miss Williams divulged the secret of the hidden treasure. The money was all in \$20 gold pieces. Mrs. Wright was 84 years old at the time of her death.

## RATHBONE'S COACHMAN

Was Fitted Out In Livory By a General Order.

Havana, Jan. 16.—When the trial of the charges growing out of the Cuban postoffice frauds was resumed here yesterday, Estes G. Rathbone, ex-director of posts of Cuba, was examined on the matter of having paid for furnishing his official residence in El Cerro, Havana, from the postal accounts. Rathbone said that he believed that such bills should be so charged, that all vouchers for furnishing this official residence were endorsed, and that all the furnishings were accounted for and afterward returned to the government. He said the salary of his coachman was paid from the postal funds and that when ex-Postmaster General Smith came to Havana he rode in Rathbone's carriage and that at Smith's suggestion he (Rathbone) bought a uniform for his coachman from the postal funds. The government has disallowed these accounts, charging them against Rathbone.

## ROBBERS' CRIME

Polish Family at Pittsburg Will Probably All Die.

Pittsburg, Jan. 16.—Neighbors made the discovery of a terrible tragedy at 200 Spring alley, this city, yesterday. A family named Visolek, Polish, was found horribly beaten. The wife was dead, the husband dying and the three small children were badly cut and bruised. The father and children were taken to the hospital. Doctors say all will die.

Three Poles who were boarders in the Visolek house are under arrest and the police are scouring the city for John Okeniski, who was also a boarder, but who has not been seen since the murder. It is learned that the woman had \$1,200 on her person Tuesday night and this is missing. Okeniski is accused of having set fire to a mattress in the house a week ago and later Visolek tried to have him arrested because he had threatened to rob the house.

## Fearful Plight of Miners.

Breux, Austria, Jan. 16.—The water in the Jupiter mine, which was suddenly flooded on Tuesday when the escape of 43 men including the manager of the mine and two superintendents was cut off, does not subside, and hope of saving the men has been abandoned. The disaster was due to the overflowing of the river Billa, near the mine. Precautions to prevent the flooding of the mine were taken too late. One engineer was saved. Subsequently nine men courageously went into the mine a second time and never returned. Thirty-one of the victims were married.

## An Even Trio.

Oxford, Miss., Jan. 16.—The jury in the second trial of Whit Owens for the murder of Hugh Montgomery yesterday returned a verdict of guilty and he was sentenced to hang on Friday, Feb. 14, the same date fixed for the hanging of Will Mathis and Orlando Lester.

## The Best Telephone City.

What is the best telephoned city in the world? San Francisco seems to be the answer. In that city, with a population of 342,782, there are 21,324 telephones, or sixty-two per thousand. In Europe, Copenhagen is probably the best telephoned city, with 15,311 telephones to its 312,859 of population, equal to forty-nine per thousand. In Copenhagen, too, the best conditions for the public exist, although the rates are relatively as high as those in American cities. London compares very unfavorably with these figures. At the beginning of this year there were 41,111 telephones to a population of more than 5,500,000, or a proportion of seven to every thousand people. New York, with a population of 2,550,000, had 54,647 instruments, or twenty-six to a thousand.

## The Engineer

Leaning from the cab window does more with his ears than his eyes. The "rumble and grumble and roar" of his engine are to him articulate speech, and a false note in that jumble of sounds would catch his ear as quickly as a discord would strike the ear of the leader of an orchestra.

He thinks more of his engine than himself. That is why he neglects to notice symptoms which are full of warning. The foul tongue, the bitter taste, sour risings, and undue fullness after eating are but symptoms of dyspepsia or some form of disease involving the stomach and organs of digestion and nutrition.

The safe crackers are doing business in Indiana again. It is the part of wisdom to deposit your money in the bank instead of leaving it in the safe in your store or office.

THE republicans in the thirteen congressional districts have elected splendid men for members of the state central committee. It is one of the strongest committees the party has ever had.

A FEW days ago the Seymour Democrat published a column article in defense of Jas. F. Cox, of Columbus, who was expelled from membership in the Bartholomew County Bar Association because of alleged violations of the rules and regulations to which the members are bound. It seems that the salary of the county attorney as fixed by the bar association, \$500 a year, was the real source of the trouble. The merits of the controversy at Columbus does not concern the people of Jackson county, but there is one statement in the Democrat's article that relates to Jackson county. It is that which relates to the salary of the county attorney in this county. The Democrat says his salary is \$150 a year. THE REPUBLICAN did not think that Carl Wood, our present county attorney, was quite that cheap. We took some pains to look the matter up and find that Mr. Wood's allowances last year amounted to \$459.50. He got \$200 as county attorney, and by virtue of his being county attorney he was legal advisor of the county council and board of review for which he was paid \$100 more, making \$300 salary. The balance of the \$459.50 was paid him for his service in litigation in which the county was interested. There is quite a difference between \$150 and \$459.50.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medicinal triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

## HIS ENGLISH FRIEND.

A Visit That Wrecked the Nerves of an American Host.

"I've been having the time of my life, I tell you," said the suburbanite gloomily to his city friend at lunch.

"What's the matter? Pipes burst? Furnace won't work? Dog killing the neighbors' chickens?" asked the friend, sympathetically running through the list of the suburbanite's usual grievances.

"No; worse than that," sadly answered the first speaker. "I've been having an English friend visit me. It's years since I've been across the water, so one or two of his ways were a little strange. The worst of his doings was what has broken me up so. He went to bed the first night before the rest of us, and when I came along the corridor an hour or so later there were his shoes standing outside his door and frightfully muddy too.

"I looked at them in astonishment. Then I remembered the English custom of having the boy come up for the boots. We keep only two servants, you know, both women, and of course in the country you have to rub them the right way or they'll leave. I knew perfectly well that if I told either of those free and independent Irish women to clean the Englishman's shoes we'd be left servantless, and that would have been the death of my wife.

"I lifted the shoes gingerly by two fingers and carried them to my room. When I thought the servants must be asleep, I crept down stairs and got to work with a brush. At every sound I would nearly jump out of my own boots and drop his. I fancied every moment that the girls would see my candle and give the alarm of burglars or that my friend would be taken ill and get up and find me brushing his shoes. Oh, I had a pretty time of it! He stayed a week, that Englishman, and what with loss of sleep and overstrained nerves I'm a wreck."

"Well, why on earth didn't you have the moral courage to—"

"Moral courage! I'd like to see the man who'd have the moral courage to tell an English gentleman with a monocle that the ways of even well bred people in this country differ from those he's been accustomed to! My friend, you do not know the breed!" And he drowned his sorrows and braced his nerves with a second cup of unsurpassed coffee.—New York Tribune.

## His Wife's Motto a Bible Verse.

The Husbands' Protection society of London has as its motto the naive verse found in what is known as the Wife Beater's Bible, published in 1549, copies of which may be found in many museums and libraries. This verse is as follows:

"He dwelleth with his wife according to his knowledge and taketh her as a necessary servant and not as a bond servant or a bond slave. And if she be not obedient and helpful to him he endeavoureth to beat the fear of God into her head that thereby she may be compelled to learn her duty and to do it."—London News.

## When the Rod Was Not Spared.

The change of thought and conditions of mankind is no better illustrated than by the history of the rod. In an article on the morals of the child by Dr. Grace Peckham Murray there is mention made of a Suabian schoolmaster who during his fifty-one years of superintendence of a large school had given 911,500 canings, 121,000 floggings, 200,000 custodes, 136,000 tips with the ruler, 10,200 boxes on the ear and 22,700 tasks by the heart.—Delineator.

## No Joking Matter.

"Joaksmith, it appears, is married and has gone to housekeeping."

"Not at all. What made you think so?"

"He's been writing so many jokes about servant girls lately he must have had some experience with them."

"Nonsense! If he'd had such experience, he wouldn't joke about it."

SEYMOUR, INDIANA, JAN. 13, 1902.

We your committee, appointed to adopt resolutions of respect to the memory of our Brother J. J. Frey do respectfully report.

WHEREAS, in the infinite wisdom of our God, he has seen fit to remove from among us our beloved Brother J. J. Frey, after a long and useful life of more than 80 years, 50 of which he lived as an Odd Fellow, good and true.

Seymour Lodge has lost a good, and faithful member and the community in which he lived an honest and upright citizen.

We, therefore, the members of Seymour Lodge 204 do hereby extend to the sorrowing members of our Brother's family our sincere sympathy and condolence, and

RESOLVED that our charter be draped in mourning for thirty days, that the resolutions be given to the daily paper for publication and that a copy be sent to our Brother's family and that these resolutions be spread on the minutes of our lodge.

G. DAHLBERG, Committee.

The gowns worn by Miss Kathryn Purnell, who is Mr. John Griffith's leading support in "A King's Rival" were made by Hermann, of New York, and designed by him from sketches sent over from Spain, of the correct style in vogue during that period of which the play relates. See the two great stars Saturday.

## State Medical Examination.

The January examination of applicants for physicians' licenses by the state board of medical registration and examination has been in progress two days, and the first quarterly meeting of the board for 1902 will come to a close this evening. Nothing but routine business will likely come up for attention.

About thirty-five applicants are taking the examination. The names of those who pass will be given out in about two weeks, that time being required to grade the papers.

## He Understood too Late.

A Seymour youngster went riding with a young lady of Columbus. On the trip she remarked that he reminded her of Venus of Milo. He didn't know who Venus was, but felt flattered over what he supposed to be a compliment. As soon as he arrived home he searched the encyclopedia and found, to his deep chagrin, that Venus of Milo had no arms. His parents found him in the cellar, the next morning, trying to butt out his brains.—Indianapolis Sun.

## Last Hope Gone.

The supreme court, Tuesday afternoon, denied the application of John Rinkard's attorneys that the court appoint a commission to examine into his sanity, on the ground that the supreme court has no original jurisdiction. John Rinkard is under sentence to hang Jan. 17. His attorneys allege he is now insane.

C. B. Newsom, formerly superintendent of the North Vernon schools, has resigned as chaplain of the reform schools for boys. His resignation seems to have been brought about by incidents connected with the story of his secret marriage some time last year.

"DEAR MRS. PINKHAM:—The honest, intelligent physician is above the 'School.' Whatever is best in each case should be used, no matter to what school a physician belongs. I, as a matter of conscience, can only prescribe the best, and as I know and have proven that there is nothing in Materia Medica which equals Lydia E. Pinkham's Vegetable Compound in severe cases of female disorders, I unhesitatingly prescribe it, and have never yet been sorry. I know of nothing better for ovarian troubles and for failing of the womb or ulcerations; it absolutely restores the affected parts to their normal condition quicker and better than anything else. I have known it to cure barrenness in women, who to-day are happy mothers of children, and while the medical profession looks down upon 'patents,' I have learned, instead, to look-up to the healing potion, by whatever name it be known. If my fellow physicians dared tell the truth, hundreds of them would voice my sentiments."—DR. WANATA, Lansing, Mich.

## The Sunny South.

We publish elsewhere today the announcement of the Sunny South, the great weekly literary periodical of the southern states. Published in Atlanta, Georgia, in the heart of the great south, it bears upon it the impress of its birthplace and environment. For more than twenty-five years the Sunny South has been a recognized factor in the field of southern literature. It was established more than a quarter of a century ago as a southern story paper and was published for a long time as a weekly and then as a monthly.

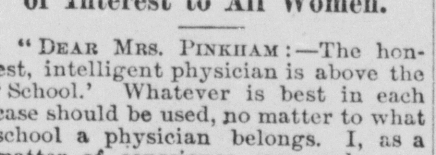

About one year ago the paper passed under new management, and in less than a year it has jumped from a circulation of 12,000 to nearly 60,000. The first thing the new management did was to make it a weekly publication and to reduce the price to fifty cents per year—less than one cent an issue—and then infuse into its columns all the enterprise and literary ability that money could command or determination secure.

If you have never seen a copy of it sent today for it on a postal card addressed to the Sunny South, Atlanta, Ga., giving also the names of six of your neighbors and special friends who may also have this treat.

## Dyspepsia Cure

Digests  
what you  
Eat

People used to think that the only way to overcome indigestion was to stop eating and many think so still. But the only trouble in that kind of treatment is the fact that to stop eating means to stop living, and we can hardly call that a cure. But since Kodol Dyspepsia Cure has become known the whole method of treating indigestion has been changed. It digests what you eat and permits you to eat all the good food you need and gives the stomach perfect rest; and its use constitutes a plain common sense method of curing dyspepsia and indigestion.

### A CASE OF IT.

Many More Like It in Seymour.

The following case is but one of many similar occurring daily in Seymour. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

James Pollard, of Cincinnati Ave., railroad employe, says: "For many years off and on I suffered from lameness across the loins and sharp twinges of pain in my back ever time I made a sudden movement. I could lift nothing of any weight and there was lack of ambition to do anything. At times the pains felt as though some one were plunging a bradawl into me. Any little cold or exposure brought on an attack and caused me acute suffering. I had heard about Doan's Kidney pills and procured them at C. W. Milhous' drug store. They proved just the remedy I needed and soon relieved me of the whole trouble. My kidneys have been regular and normal ever since and I can sleep all night without being disturbed."

For sale by all dealers, price 50 cts. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the Doan's and take no other.

### TOLD IN SEYMOUR.

It's the Evidence of Seymour People Published in Seymour Papers that Has Made Such a Reputation for Dr. A. W. Chase's Nerve Pills.

Standing clear and distinct, marking the difference, the superior merit, the adaptability to present day ailments is the volume of local testimony for Dr. A. W. Chase's Nerve Pills. It is so different to the ordinary remedies referring to cures made at distant points which it is hard to verify. There is a reason for Dr. A. W. Chase's Nerve Pills commanding home evidence wherever they are known. It is their wonderful influence in bringing up the standard of Nerve force. Mr. Phillip Briner, of No. 572 Pine street, south, Seymour, Ind., says: "I have been troubled for some time with severe nervousness and dizziness. I heard of Dr. A. W. Chase's Nerve Pills and got a box at A. J. Pellen's drug store. Now after using them I can say my nervous system has been toned up and as a result I am relieved of the dizziness. I consider these pills an excellent nerve medicine."

### A Good Recommendation.

"I have noticed that the sale on Chamberlain's Stomach and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, you are certain to be delighted with the prompt relief which they afford. ### Remarkable Cure of Croup.

A LITTLE BOY'S LIFE SAVED.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that I had not got the bottle of cough medicine, my boy would not be on earth today.—JOEL DEMONT, Inwood, Iowa. For sale by C. W. Milhous.
